THE WAY THEY'RE
MEANT TO BE™

THE R9 ORANGERY

An Orangerie was a building in the grounds of fashionable and period residences from the 17th to the 19th centuries, where citrus trees were often wintered. Residence 9 is designed to authentically replicate 19th Century timber designs, with the benefits of modern materials and efficiencies. You can create contemporary and traditional orangeries that are a useful and visually stunning lifestyle addition to your home. Space for you to relax and socialise in.
